Introduction

Established in 1999, Cove Park is an artists' residency based in Argyll on the west coast of Scotland. We host national and international cultural producers and researchers working in all artistic disciplines, in the creative industries, and in academic and scientific contexts. We provide the facilities, the support, and the care required for the development of new ideas and new projects, collaborations, and interdisciplinary practice. Residents stay on site in private accommodation and have access to private studios, communal work and meeting space, a library, and Cove Park's 50-acre rural site. We host up to 12 residents at any one time. This means every resident can meet and work alongside individuals and

collaborative groups from a wide range of backgrounds and career stages. We organise informal peer-to-peer events to encourage discussion, the exchange of ideas and experiences, and the development of new connections.

Please see <http://www.covepark.org/> for further information on our current programme and images of Cove Park's site and facilities. Our [FAQ](#) page answers general questions on Cove Park's residencies and access.

The Argyll Heritage Craft Residency 2024

This is a new residency funded by the Crerar Trust. Contemporary craft and design have been key aspects of Cove Park's annual residency programme since 2000 and many of the participating makers have employed traditional craft processes, materials, designs, and techniques in the production of their work. However, this is the first time Cove Park has offered a dedicated residency designed to support a maker based in Argyll whose work focuses exclusively upon the preservation of traditional craft skills and processes with the aim of preserving and promoting these skills for future generations.

Key Points

- The maker should be based in Argyll, Scotland.
- The maker will receive a total residency fee of £1,100 (£550 per week), plus a travel allowance (to and from Cove Park) of up to £75, and a research/materials allowance of up to £100.
- The residency is designed to support the development of new work, research, and experimentation.
- Cove Park's team will support research and practical requirements leading up to and during the residency.

What Cove Park Provides

- Individual private accommodation and studio on site at Cove Park
- Workspace and meeting space within the communal Jacobs Building, which also houses a small library, a large rehearsal room with a wooden floor, open-plan kitchen and dining area, and laundry facilities.
- Unlimited access to the 50-acre site.
